Lesson Plan (CORE, Semester VI, January to April 2023)

Name of Teacher	Dr. Bhawna Shivan	Department	___Sociology__
Course	B.A (Hons) Sociology	Semester	VI
Paper	Sociological Thinkers II	Academic Year	January- April 2023

Learning Objectives

Objective of teaching Sociological Thinkers to undergraduate students is to enable them to apply theory to their own everyday life experiences. This requires that students develop their sociological imagination and the capacity to read each situation sociologically and then to think about it theoretically. To this end, it is imperative that sociological theory courses demonstrate the applicability of theory to students.

Learning Outcomes

Understanding the characteristics and dynamics of the social world, and how post-classical sociologists attempt to understand the social world.

1. Appreciating the relevance and limits of the contemporary theories or theoretical approaches to make sense of social reality.
2. Understanding the basic methodological approaches of the thinkers, through some original texts and their role in building sociological knowledge.

Additional Resources

The students are encouraged to read the original texts and the teacher often participates in the reading process. Thereby the teacher engages in active, rather than passive, pedagogy. It is important that the classroom sessions, initiated either by the student or the teacher, would encourage teamwork or draw students towards learning, yet there are other means available now which add to that. The use of digital/ICT generated techniques (audio-visual aids).
