Subject: Request for your Students Participation in Awareness Programme on Environmental Hazards of Electronic Waste under "E-Safai" Initiative, Online or Offline Session, - Delhi

Dear Sir/ Ma'am,

Season's Greetings!

I am writing to you on behalf of **"E-Safai" an initiative to educate and spread awareness on Environmental Hazards of Electronics waste**. The electronics industry is growing exponentially; and with rapid advancements in technology and demand and ever-increasing obsolescence rate, we all face a new challenge. The challenge of Electronic Waste, also known as E-Waste. Some studies indicate that E-Waste in India is growing at over 500% every year and less than 5% of it is being recycled properly.

E-Safai intends to raise awareness about safe and sustainable handling of e-waste among Residents Welfare Associations, Schools/Colleges, Retailers, Bulk Consumers, and Institutionalizing of the Informal sector through a series of online and on-ground campaigns in New Delhi and Hyderabad over the next three years including PAN India. The project will also support the channelization of e-waste for formal recycling with the involvement of the informal sector. It also aims to build the capacity of the informal sector and

entrepreneurs on business models for formal e-waste collection, dismantling and recycling. The project will also include policy advisory on E-Waste Management related issues

**In view of the above We want to conduct an Awareness Program on the “Environmental Hazards of Electronic Waste” in this next week in your organization. The program duration shall be 02 hours**

We seek your collaboration in the following 4 ways-

1. Participation of maximum number of students from college for training session.
2. Initiate an E-waste collection drive amongst your students ( small items which are not bulky) so that the students can carry the items for the programme in this session.
3. Nominate 2 students from your college, who are adept as speakers, to take part in an extempore speech competition that will be held after the knowledge session in august. Kindly submit the names of these students at the time of your college's participation confirmation.
4. Nominate 5 students from your college for Mime Act/Extempore on the topic of save environment. All the students will be awarded with certificates of appreciation.
5. We also place E-Waste bin in school, college and RWA.

**We look forward to your college's participation in the programme and to creating a learning opportunity which will provide students with an understanding about how to respond responsibly to the rising challenge of E- waste so that they emerge as champions of environmental protection in the country.**
